## REPORT OF THE SELECTMEN

For the Year Ending Feb. 15, 1911.

---

To the Citizens of Hillsborough :

The policy of the town in figuring to pay one thousand dollars annually on the debt has, during a series of years, materially reduced the amount necessary to be raised to meet the interest on the town notes. For the year ending Feb. 15, 1906, \$2582.31 was paid on the town debt ; for 1907, \$1727.17 ; for 1908, \$1922.03 ; for 1909, \$583.81 ; for 1910, \$1371.07 ; for 1911, \$2425.10. During the six years mentioned, the debt has been reduced \$10611.49, making a saving on interest of over \$300.00. During the same period, town barn property has been secured at a cost of about \$2000.00, and the sum of \$13,113.56 has been raised for permanent road improvement, making over \$25,000.00 that has been set aside after paying the ordinary bills and the interest on the town debt.

The executors of the Albe Stevenson estate have turned the balance remaining after paying the bequests, over to the town. Besides the money received, the town has come into possession of one building lot in Baltimore, Md., and three lots in Watertown, South Dakota. The selectmen have looked up the lots in Watertown and find them to be worth about fifty dollars each. The annual tax is about three dollars and the lots are regarded as increasing in value. The last tax bill on the Baltimore lot was for one dollar and thirteen cents. It is the opinion of your selectmen that it would be advisable to dispose of this lot at the first favorable opportunity.

## TRUST FUNDS

---

The following are the Trust Funds held by the town. We have obtained a certified copy of the clause of each will in which the bequest was made, showing the conditions under which they were received. By request of the Committee raised for this purpose, the Selectmen have given the town notes payable to the order of the Selectmen for each bequest not already made promissory.

\$2000.00    Extract from will of Mark W. Fuller.

Article 4th. I give and bequeath to the town of Hillsborough Two Thousand Dollars (\$2000) to be by said town invested as they deem proper, upon the two following conditions, viz :—First, that the said town shall yearly expend for the benefit of said town and its inhabitants, an amount of money equal to the income of this said bequest, the question as to the way and manner in which it shall be expended to be decided by a vote of the town at any legal meeting, and, Second, that the said town shall forever keep in good and suitable repair and condition the "Fuller Plat" in the cemetery in said town between the "Upper" and "Lower" Villages, and I hereby order and direct my said executrix to pay the same or said sum over to said town as soon as may be after my decease and upon the town accepting the same, upon the stated conditions, otherwise, I order the said sum to be paid to my nephew, Wirt X. Fuller of Boston, Mass.

Accepted by town, March 13, 1877 ; received in year 1877.

\$1000.00    Extract from will of Sarah C. Fuller.

Article 4. I give and bequeath unto the town of Hillsbo-

rough, One Thousand Dollars for the "Fuller Library" established in said town; it being subject to the same conditions from said town that the late Mark W. Fuller bequest to said town was and is, excepting that the first Selectman of said town shall visit the "Fuller Plat" four times a year forever.

Received in the year 1884.

\$100.00. Extract from will of Maria Travis of Mont Vernon, N. H.

Article 1st. I give to the town of Goffstown and the town of Hillsborough (this state) One Hundred Dollars, each, the interest to be appropriated for all future time to keeping my lots and stones in the cemeteries of said towns in good condition.

Accepted by town, March, 1892; received, Feb. 11, 1893.

\$100.00. Extract from will of Sarah M. Taggart, late of Lowell, Mass.

Article 1st. I give, devise and bequeath to the town of Hillsborough, New Hampshire, the sum of One Hundred Dollars, to be invested and the interest to be expended for the care of the family burial lot in the Hillsborough Lower Village Cemetery.

Received, March 25, 1897.

\$200.00. Extract from the Town Records of meeting, March 8, 1898.

Article 11th. To see if the town will vote to accept the sum of Two Hundred Dollars from Caroline M. Burnham, on condition that the town will forever care for the lot and monument in Deering Cemetery known as the Dr. A. C. Burnham Lot.

No will. Accepted March, 1898; received Oct. 19, 1898.

\$100.00. Extract from the will of Catherine W. Bascomb, late of Lynn, Mass.

Article 3d. I give and bequeath to the town of Hillsbo-

rough, New Hampshire, the sum of One Hundred Dollars, to be applied to the care and preservation of my burial lot in the cemetery, situate on the Lower Village, so called.

Accepted by town March, 1899; received May 10, 1899.

\$50.00. Extract from the will of Mary E. M. Smith.

Article 2d. If there shall be any portion of my estate remaining after paying and distributing such sums as shall be necessary for the purposes mentioned in the first item of this will, I give and bequeath to the town of Hillsborough, in the county of Hillsborough and state of New Hampshire, the sum of Fifty Dollars, said town to expend the income of the same in the maintenance and care of my burial lot and that of my deceased husband, Jerry Smith.

Accepted by town March, 1900; received Feb. 11, 1901.

\$2633.98. Extract from the will of Abney Simonds.

Article 5th. The rest, residue and remainder of my estate of whatever kind, or wherever found or situate, both personal or real estate, if any, after paying all just debts, legacies and expenses of administration of said estate, I give, bequeath and devise to the towns of Windsor and Hillsborough, to be divided equally between said towns. The amount, if any, shall be safely invested by said towns and the income from the amount *shall be used yearly towards paying the yearly expenses of said towns and for no other purposes*, and shall be known as the Abney Simonds fund.

Received Nov. 4, 1899.

\$100.00. Extract from the will of George C. Richardson.

Article 12th. I give and bequeath unto the town of Hillsborough in the County of Hillsborough and State of New Hampshire, the sum of One Hundred Dollars in

trust, the income to be used for the benefit and care of my lot, situate in the cemetery between the Lower and Upper Villages.

Accepted by town March, 1903; received April 4, 1903.

\$100.00

Bequest of Abby C. Murdough of One Hundred Dollars, the income to be paid to the M. E. Church Society at Hillsborough Center. Note dated May 1st, 1883, payable on demand to the Selectmen of Hillsborough, or order, on file in the Selectmen's office.

\$100.00. Bequest of the will of Mrs. Wm. H. Gray.

"And I order my executor to keep in trust One Hundred dollars, the income to be used to pay for looking after and care of the Wm. H. Gray plat in the cemetery in Hillsborough and for care of said money is not required to give any bond."

This fund was left to John M. Curtis and on his death was turned over to the town.

\$200.00. Extract from the will of James A. Tuttle.

Article 1st. I give and bequeath to the Town of Hillsborough, in said County of Hillsborough, the sum of Two Hundred Dollars, the income of the same to be used by said town annually in the care and maintenance of the James M. Tuttle burial lot at Pine Hill cemetery, so-called, at Hillsborough Lower Village, in said town of Hillsborough.

Accepted by town March 13, 1906; received June 27, 1907.

\$400.00. Extract from will of Sarah A. Grimes.

Article 2d. I give, devise and bequeath to the town of Hillsborough, N. H., the sum of Four Hundred dollars but in trust nevertheless for the following purposes and upon the following terms and conditions, viz: that

said town shall forever keep in good condition and repair the family burial lot of my father, Eben Jones, in the cemetery near the old Baptist church in said town of Hillsborough. That the Board of Selectmen of said Town, or at least one member of said board, shall visit said lot during the first week in May, during the first week in July and during the first week in October of each year, and at such other times as may become necessary to inspect said lot, cut the grass, keep the stones and monument in order and make such repairs as may become necessary. If said town of Hillsborough declines to accept said fund or, having accepted said trust, fails to carry out the foregoing provisions, then and in that event said trust shall terminate and said trust fund shall revert back to my estate and shall be divided between my six children now living, in equal shares.

Accepted by town March 12, 1907; received April 13, 1907.

\$100.00. Extract from the Town Records of meeting, March 10, 1908.

Article 10th. To see if the town will vote to accept from Charlotte Towne the sum of One Hundred dollars (\$100.00), the income to be used in caring for the Ebenezer Towne lot in Pine Hill Cemetery.

Accepted March 10, 1908; received April, 1908.

\$500.00. Extract from will of Daniel B. Smith.

"I give and bequeath unto the Town of Hillsborough in the County of Hillsborough and State of New Hampshire, the sum of Five Hundred dollars, the same to be held by said town of Hillsborough in trust, the income thereof to be each year expended by said town in caring for and keeping in repair the cemetery lot be-

longing to my wife, Mary E. Smith, situated in the Lower Village cemetery so called, in said Hillsborough. The income of said fund shall be used for no other purpose and if said trustee neglects or refuses to expend the same in accordance with this my will, it is my wish that a suitable trustee be appointed by the Court to carry into effect this bequest."

Accepted March 8, 1910; received May 2, 1910.

## REPORT OF THE BOARD OF HEALTH.

To the Selectmen and Citizens of the Town of Hillsborough, N. H.:

Your Board of Health has little of interest to report.

Throughout the year there have been no diseases requiring quarantine reported and the bills have been consequently light.

The prevalence, during the last few weeks, of influenza is regrettable, but cannot be averted or controlled. Many of its complications might be prevented by early treatment and avoiding exposure.

There has been an unusual number of deaths of aged people and from chronic diseases of long standing, but the number from acute or preventable diseases has been small.

JOHN GOODELL, M. D.,

WARREN P. GRIMES, M. D.,

LEON E. ANNIS,

## TOWN WARRANT.

## STATE OF NEW HAMPSHIRE.

To the inhabitants of the Town of Hillsborough, County of Hillsborough, in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Childs' Opera House in said town on Tuesday, the fourteenth day of March next, at nine of the clock in the forenoon to act on the following subjects:

1. To choose three Selectmen, Town Treasurer, Tax Collector, Highway Agent, Town Clerk and Chief of Police for the ensuing year, Trustee of the Fuller Public Library for the two ensuing years, and all other necessary town officers or agents for the ensuing year.

2. To hear the reports of the Selectmen, Town Clerk, Town Treasurer, Tax Collector and Highway Agent to the Town Auditors, the reports of the Auditors, Agents, Committees or other town officers heretofore chosen or appointed and to pass any vote relating thereto.

3. To raise such sums of money as may be necessary to meet the current expenses of the town and apply upon the principal and interest of the town debt, or pass any vote relating thereto.

4. To see what sum of money the town will vote to raise for the building and repairing of highways, bridges and culverts.

5. To see if the town will vote to raise a sum of money, not to exceed seventy-five dollars (\$75.00) for Senator Grimes Post, G. A. R., to be used Memorial Day.

6. To see if the town will vote to continue the present laws in force prohibiting cattle and horses from running at

large in the highways.

7. To see if the town will vote to raise any money for the support of the Fuller Public Library, or pass any vote relating thereto.

8. To see if the town will vote to raise and appropriate the amount of money necessary to secure State aid for the permanent improvement of highways.

9. To see if the town will vote to raise the sum of two hundred dollars (\$200.00) for the suppression of the Gipsy and Brown Tail Moths, or pass any vote relating thereto.

10. To see if the town will vote to instruct the Selectmen to extend the present contract with the Hillsborough Electric Light and Power Company for the period of five years, or pass any vote relating thereto.

11. To see if the town will vote to increase the Liquor License Fees, according to Chap. 95, Sect. 32, Session Laws, 1903, or pass any vote relating thereto.

12. To see what action the town will take in regard to the bequest made to said town by the will of Lucy A. Colby, late of Hillsborough, deceased, which reads as follows ; "I give and bequeath to said Hillsborough the sum of Two Hundred Dollars (\$200.00) in trust, the income to be used yearly for the care of my burial lot and monument in 'Deering Cemetery,' so-called, situated in Deering, said county and state."

13. To see what action the town will take in regard to the bequest made to said town by the will of S. J. Wilson, late of Lyndonville, Vt., deceased, which reads as follows : "I give and bequeath to the town of Hillsboro' in the county of Hillsboro' and State of New Hampshire the sum of fifty dollars to be held in trust, the income of which shall be used each year to keep in order the graves of James Wilson, Hannah Wilson, Rodney Wilson and Robey

Wilson, all of Hillsboro,' State of New Hampshire.'

14. To see what action, if any, the town will take in regard to a general re-appraisal of the real estate of the town, raise money for the same, or pass any vote relating thereto.

15. To see if the town will vote to authorize the Selectmen to sell and deed lots in the town cemeteries, or pass any vote relating thereto.

16. To see if the town will vote to raise and appropriate any money for the support of band concerts the coming season or pass any vote relating thereto.

17. To transact any other business that may legally come before said meeting.

## PRECINCT WARRANT.

## STATE OF NEW HAMPSHIRE.

To the inhabitants of the Hillsborough Bridge Village Fire Precinct in the Town of Hillsborough qualified to vote in Precinct affairs:

You are hereby notified to meet in Precinct Hall in said Precinct on Monday, the twentieth day of March, 1911, at seven of the clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To see if the Precinct will adopt the provisions of the Act of February 9, 1911, of the New Hampshire Legislature, relating to the election of Commissioners, or pass any vote relating thereto.
3. To choose one or more Water Commissioners to serve five years.
4. To choose three Fire Commissioners; one to serve one year, one to serve two years and one to serve three years.
5. To choose Treasurer, Clerk, Auditors, and other necessary Precinct officers for the ensuing year.
6. To hear the reports of the Fire Commissioners, Water Commissioners, Treasurer, Clerk, Auditors, and other officers and committees heretofore chosen, and to pass any vote relating thereto.
7. To see if the Precinct will vote to raise and appropriate the sum of four hundred dollars (\$400) necessary to run the sprinkling cart for a period of twenty weeks or more.

8. To raise such sums of money as may be necessary for paying the current expenses of the Precinct, the debt of the Precinct, and any other charges arising within said Precinct.

9. To transact any other business that may legally come before the meeting.

Given under our hands this twenty-fifth day of February in the year of our Lord, nineteen hundred and eleven

JOHN B. TASKER,  
FRANK E. MERRILL,  
DANIEL W. COLE,

Board of Fire Commissioners.

## REPORT OF THE FIRE COMMISSIONERS

---

For the Year Ending Feb. 15th, 1911.

The Board of Fire Commissioners submits the following report:

There has been but one alarm rung in the past year, the fire being in Parker's buildings in the rear of Post Office block. The prompt work of the firemen prevented disastrous results, as it was in a very dangerous locality, about \$250 damage being done. This fire caught in a rubbish heap in one of the out buildings, and this brings out the fact that there are altogether too many fire traps of this nature in the compact part of the village, and they should be looked after by the owners and cleaned out.

There have been about thirty chimney fires which the Fire Chief has been called on to extinguish. He reports not a few defective chimneys in the Precinct that the owners should attend to, repairing without delay.

Most of the public buildings requiring "by law" fire escapes, have been equipped with same; the remaining few owners have promised to attend to the matter at once.

It was necessary to take up and relay about 450 ft. of sewer pipe the past year on account of roots getting in.

The street sprinkling last season was very satisfactory indeed, and was money well expended.

With the new 14 in. Water Main installed last summer and our excellent Fire Department, we think we are able to cope with most any fire unless of a very serious nature, the one hydrant in Central Square being pronounced by experts as equal to two good fire steamers.

The Precinct was very unfortunate last August in losing by death its efficient Chief Engineer, Emmons C. Newman. The unexpired term has been very ably filled by the First Assistant Engineer, William E. Newman.

During the season of 1910, the water commissioners re-laid the old 8 inch cement lined main pipe from the reservoir on Bible Hill to Central Square, with 16 and 14 inch cast iron pipe in accordance with instructions and recommendations of the voters at the annual precinct meeting held March 14, 1910.

The total cost of the work was \$26153.64, exceeding the appropriation by \$1153.64, due principally to extraordinarily hard trenching throughout the village, wet weather and some alterations in the original plans.

The money for this additional expense, however, was taken from water funds so that it was unnecessary to borrow in excess of the amount voted. The actual amount authorized was \$25000, while only \$24700 was borrowed for this purpose. The cost of the work is divided as follows: "Renewal," \$10425.82; "Excess Renewal," \$15727.82. "Renewal" is charged to Income Account and "Excess Renewal" to Construction, being a permanent improvement to the water works.

The total length of pipe laid was 4200 feet 16 inch and 6846 feet 14 inch, or a total of 11046 feet.

The commissioners believe that the work was conducted economically and that the pipe is exceptionally well laid. In substantiation of this statement is the fact that not a leak has developed on the new main since laid.

Our new main has been laid with an eye to the future. At the streets where a distribution main is ever likely to be needed, a tee has been inserted and plugged, and at all the streets now supplied with a distribution main arrangements have been made so that a larger pipe can be supplied whenever necessary without shutting the water off from the main.

New hydrants were purchased and set, two of which for Central Square are much larger, one being a four nozzle, the other three way—both with eight inch leads to the main and an independent shut off for each nozzle. Each hydrant also is provided with an independent gate valve in the street so that in case the hydrant is under repairs it will be unnecessary to shut off the supply of water.

On October 1, 1910, the Commissioners made a test of the new system which showed the following result:—

NO. streams	Lbs. to sq. in.	Static pressure, 73 lbs. hydrant on Central St.
1	72	Hydrant by Peaslee's
2	71	" corner Main and School
3	70	" " " " "
4	68	" " " " "
5	65	" " " " "
6	63	" by Rumrill Building
7	60	" " " " "
8	57	" " " " "
9	56	" by Sleeper's
10	54	" corner Main and Central

Four 1½ inch, four 1 inch and two ¾ inch nozzles were

used, the average being better than 1 inch. When all ten streams were running at the same time, the full pressure was reduced from 73 to 54 lbs. per square inch—but 19 lbs. loss.

Referring to item in Balance Sheet, "Supplies on hand," \$2535.29. Of this amount \$1139.17 represents the value of pipe purchased the first part of last year to complete the supply line on the south side of Andrews hill, so called. This work would have been completed last season had not the matter of a new main pipe been taken up by the precinct.

The commissioners also purchased some light weight six inch pipe for a temporary by-pass, used in bringing the water around the reservoir on Bible Hill during the work of laying the new main. This pipe will be used later in the supply line on Bible Hill. The value of this iron is also included in "Supplies on hand," amounting to \$201.60 as well as new tools taken at \$200. The balance of supplies on hand consists of pipe and material carried in stock for repairs.

The commissioners have spared no efforts in seeing the work thoroughly done and hope the results obtained will meet the approval of the citizens of the precinct. Much credit is due Mr. B. E. Newman, who had immediate charge of the laborers.

## REPORT OF SCHOOL BOARD.

---

To the Citizens of Hillsborough :

The members of the School Board for the Town District respectfully present to you their report for 1910-11 and also that of the Superintendent of Schools.

Seven schools have been maintained during the year although the membership in one, during the winter term, has been but four.

The ceilings of all the schoolrooms have been whitened during the year and, wherever it was necessary, the walls have been painted. Two schoolhouses have been painted on the outside. A new floor has been laid in the Lower Village schoolhouse and the Smith Heating and Ventilating System installed. This schoolroom has always been very hard to heat, but this system seems to have solved the difficulty. The out-buildings in this division, which are very public, have been screened. A lavatory has been placed in the girls' dressingroom.

The Board has endeavored to use the money raised for repairs in the most practical way, where it would do most lasting good.

Needed during the year 1911-12 for text books, supplies, flags and appurtenances and high school tuition :

Text books and supplies	\$ 75 00
Flags and appurtenances	
High school tuition	225 00

## Report of the Superintendent of Schools.

### Members of the School Board :

I respectfully submit the following report concerning the schools of the Hillsboro Town District for the year ending February fifteenth, nineteen hundred eleven.

During the year covered by this report, there have been numerous changes in the teaching force. Mrs. Gladys H. Murdo resigned the position of teacher at the Concord End school after the close of the winter term, a year ago, and Miss Edith L. McAdams was elected to succeed her. Miss Alice M. Swain did not return to the Upper Village school for the spring term and Miss Bessie M. Kimball was transferred to that school from the one on Bear Hill. Miss Nina M. Spofford of Newburyport, Mass., was chosen as Miss Kimball's successor. Not long after the close of the spring term, three teachers, Miss Lois H. Rickey of the Center school, Miss Nellie M. McNiff of the Merrill school and Miss Nina Spofford of the Bear Hill school, notified your superintendent that they would not return in the fall. These vacancies were filled by electing Miss Edith M. Emerson of Haverhill, Mass., a graduate of the Lowell Normal school, for the Center school ; Miss Ethel M. Farley of Hancock, who had spent a year at the Keene Normal school, for the Bear Hill school ; and Miss Maudeeine S. Baker of the Lower Village for the Merrill school. Miss Baker resigned at the close of the fall term and Miss Janet C. Robertson of Deering accepted the position of substitute teacher in that school. Miss Helen D. Daggett, the supervisor of music during the spring term, received a flattering offer in the summer to go elsewhere and Miss Gertrude E. Clark of Williamstown, Mass., accepted the position thus made vacant.

This long list of changes has some discouraging feat-

ures. Certain it is that the most effective work cannot be done when a teacher remains in a school but a term or two and then departs for other fields of labor. However, there are ways, by means of which, the ill effects of this state of affairs may be lessened. One is to require each teacher to make out a written report of the work done each term for the superintendent to examine and hand to the teacher for the next term. This has been done. Another aid is to have a printed program of studies to be followed year after year. Such a program has been prepared by the State Department of Public Instruction, and a copy has been placed in each schoolroom for the use of the teacher as a guide in her work. While it may not always be possible to follow this exactly in all details, it serves as "a line to hew to." When placing these in the schools, I discovered that a few pupils were ahead of the schedule in some subjects and behind in others. In such cases, I advised that they have extra lessons in the subject that had been neglected. A third valuable aid in overcoming the ills mentioned would be to always employ trained and proved teachers. This, however, is not possible in all cases on account of the low salaries that we can offer, and also because teachers with such qualifications prefer, and have but comparatively little difficulty in securing, positions in larger schools where they will have but one or two grades to teach instead of six or eight.

I do not wish to be misunderstood regarding the work that our teachers are doing. They are working conscientiously, they accept suggestions kindly and profit by them, and they are becoming more effective in their work as the months go by. I think that these statements will hold true almost without exception.

To carry on the work to the best advantage, the schools need to have maps, books, pencils, paper and nu-

merely other things, small in themselves, but very useful. Many such things have been furnished. At this point, mention might be made of the purchase of bells, clocks and thermometers, so that there should be one of each of these articles in every schoolroom. Each school also has a water tank with a cover and faucet so that it is no longer necessary for the pupil to put the dipper into the water pail whenever he wishes to get a drink. As a further sanitary precaution, I would suggest that each pupil have a cup for his own personal use. The old adage, "An ounce of prevention is worth a pound of cure," applies here.

At the Lower Village schoolhouse, the new floor, the tinted walls, the bookcase containing the new library books, the lattice work in front of the shed and the new heating and ventilating apparatus need to be seen and examined in order to be appreciated. The library at the Center school has also been increased by the addition of books purchased with money raised by an entertainment given by Misses Lois H. Rickey and Lisabel Gay, who deserve the thanks of all those benefitted for their interest manifested in this material manner.

There is one thing more to which I wish to call attention, and that is the matter of attendance. It is axiomatic that the pupil suffers a great loss if he goes to school irregularly. It is not as well understood, however, that the town may receive less from the state fund because of the failure to attend school on the part of those who should be there. This reduces the average attendance upon which a part of the income is based. Therefore it is for the interest of all concerned that every pupil should be in school every day.

In closing this report, I wish to thank all those with whom I have been associated for their uniform courtesy and confidence.

FREDERICK L. KENDALL,  
Superintendent of Schools.

The schools that were in session during the winter term and the teachers are given below :

## SPECIAL SCHOOL DISTRICT WARRANT.

## STATE OF NEW HAMPSHIRE.

To the inhabitants of the Special School District in the Town of Hillsborough qualified to vote in district affairs :

You are hereby notified to meet in the schoolhouse in said district on Monday, the twenty-seventh day of March, 1911, at seven of the clock in the afternoon, to act on the following subjects :

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a member of the Board of Education for three years.
4. To hear the reports of the Board of Education, Treasurer, Auditors and other officers and committees heretofore chosen and pass any vote relating thereto.
5. To raise such sums of money as may be necessary in addition to the amount required by law for the support of schools, repairs on buildings, and any other necessary charges arising within said district.
6. To choose Auditors, Agents or Committees in relation to any subject embraced in this warrant.
7. To transact any other business that may legally come before said meeting.

Given under our hands this twenty-seventh day of February, in the year of our Lord nineteen hundred and eleven.

JOSEPH W. CHADWICK,  
LEON E. ANNIS,  
GEORGE W. HASLET,  
Board of Education,

## Report of the Board of Education.

---

The Board of Education presents herewith its report for the fiscal year ending February 15th, 1911, and the school year ending July 15th, 1910, together with reports from Superintendent of schools and special instructors.

As will be seen by report, our cash balance has been reduced below the amount necessary to cover the bills of the Spring term. This is occasioned by loss of revenue from the state for approved teachers and attendance. The state appropriation being insufficient to cover the expense of these items in the state, the larger towns were unable to receive their share of the distribution of this money. A bill is now before the legislature providing for an appropriation to cover the amounts due such towns, but if it fails of passage, a much larger amount than usual will have to be raised at the next school meeting to pay the expenses for the ensuing year.

The only appropriation, in addition to the amounts for current expenses, which will be asked for, is a sum to provide for the laying of new floor in one room, and to provide better ventilation for the basement rooms, as suggested in the report of the superintendent.

JOSEPH W. CHADWICK,  
GEORGE W. HASLET,  
LEON E. ANNIS,

## Report of the Superintendent of Schools.

### Members of the School Board:

I respectfully submit the following report concerning the schools of the Hillsboro Special District for the year ending February fifteenth, nineteen hundred eleven.

It is not often necessary to record as many changes in the list of teachers as there have been since the printing of the last annual report. The first resignation was that of Miss Louise J. Cooper, who gave up her position as assistant in the high school at the close of the winter term. Miss Alice S. Furber, a graduate of the University of Vermont and a teacher of some experience, succeeded her and remained with us during the spring term. The others whose resignations went into effect at the close of that term were Miss Emily M. Cate, assistant in the high school; Miss Annie E. Palmer of the commercial department; Misses M. Louise Tracy, Mary I. Powell, Bessie A. Bragdon, Nina A. Perkins, teachers in the grades; Miss Helen D. Daggett, supervisor of music; and Miss Emeline O. Mendum, supervisor of drawing. The names of their successors appear in a tabular form later in this report. An examination of this reveals the fact that all of the teachers have had good preparation for their work. It does not show, however, that all of the new teachers, with one exception, came to Hillsboro after having had some teaching experience.

Early in the fall, the State Department of Public Instruction issued a revised Program of Studies for Elementary Schools in which the work is arranged for an eight grade system of schools. Each grade teacher has a copy of this document and is carrying on the work largely in accordance with the outline therein given, which means, that we are endeavoring to do the work of the elementary schools in eight years. While the nine grade system is

still in use in many places, the tendency of the times seems to be in favor of an eight grade division of the work. The advocates of this claim that the work that a pupil of ordinary ability should do, can be done in eight years, if the work is carefully selected, well systematized, and intelligently taught. In arranging the subjects of instruction according to such a plan, some of those that are practically useless or obsolete as far as business purposes are concerned, are omitted from the program. In this way time is saved, or an opportunity is furnished for the introduction of other subjects that have more vital importance.

Although many men are giving the best of their lives to the study of educational problems, there are some who say that the schools of the "good old days" produced better and more thorough scholars, especially in such a subject as arithmetic, than do the schools of the present time. Some facts that have come to light within a few years seem to discredit this assertion. The incident most widely known occurred in Springfield, Mass. The superintendent of schools discovered some examination papers written by pupils in the first year of the high school over sixty years ago. One of the grammar masters gave the same questions to the ninth grade pupils in his school and then marked both sets of papers according to the same standard. The results of the arithmetic test are given below, and also the average obtained by pupils in the ninth grade of the Hillsboro school when given the same test.

Springfield, 1846	29.4
Springfield, 1905	65.5
Hillsboro, 1910	61.3

These results are very suggestive to say the least.

In my report last year, I called attention to the need for more room in order that the work might be carried on to the best advantage, and in order that the pupils might

have more healthful accommodations. That need still exists, and is fully as urgent, because of the increased numbers in the high school. One or two things could be done that would relieve some of the undesirable conditions, and that would not call for a large outlay at the present time. A ventilating shaft for the sanitariums in the basement is as much needed as anything. This might be erected in the part that connects the rear portion of the building with the original structure without interfering with, or cutting into, present rooms or hallways.

Another improvement in the way of sanitary precaution would be the installation of drinking fountains in the basements. This might be accompanied by a regulation that each pupil be provided with an inexpensive drinking cup for his personal use should he wish to use water from a faucet in a schoolroom.

While it is not possible to wholly avoid or ward off diseases, especially those that are contagious, such as measles that so seriously interfered with the work last spring, reasonable care should be exercised on account of the public welfare. Our legislator took cognizance of this when they enacted the following law: "No parent or guardian, person or persons having the custody of any child, shall permit such child, if affected with any communicable disease, or has been exposed to such, to attend any public or private school.

"Any person who knowingly violates any provision of this chapter, or any regulation established by authority of this chapter, shall be punished by a fine of ten dollars for each offense."

Measles, mumps, smallpox, diphtheria, scabies, pediculosis capitis are some of the diseases regarded as communicable within the meaning of the law.

In closing this report, I wish to assure those with

whom I have been officially connected during the past year that I have appreciated their unfailing courtesy and co-operation.

Respectfully submitted,

FREDERICK L. KENDALL.

Superintendent of Schools.

## Report of Principal.

To the Superintendent of Schools:

The whole number of pupils registered in the High School this year is sixty, classified as follows:—

	BOYS	GIRLS
Fourth Year,	2	5
Third Year,	2	7
Second Year,	10	5
First Year,	16	13
	<hr/>	<hr/>
	30	30

The present enrollment is fifty-eight, twenty-nine boys and twenty-nine girls. It may be worthy of mention that the proportion of boys is so large. Of late, educational journals have frequently called attention to the small percentage of boys in the high schools throughout the country. It is gratifying to find that our school is an exception in this respect.

After two years' trial, some changes in our commercial course seemed advisable, and, with the approval of the Committee, these were made at the end of the spring term. At the beginning of the course, instruction in penmanship is now given for six weeks before book-keeping is begun; a half-year of physical geography precedes the study of commercial geography; the time allotted to commercial arithmetic is increased from a half-year to one year; algebra is now required in the second year instead of the first, and geometry a year later; the study of the history of commerce is changed from the third year to the fourth. While the modified course has been on trial only six months, it is working well, and seems to be an excellent course, well adapted to the needs of the school.

In the spring, a considerable number of reference

books were purchased for the school, most of them books recommended by the State Department of Public Instruction. These have been an important addition to the equipment of the school.

The partition recently put up in the small recitation room is an improvement that is much appreciated. Now it is possible to heat the room sufficiently in the coldest weather, and to keep out the dust that rises from the stairways below.

Last spring, application was made to secure the approval of the school by the New England College Entrance Certificate Board. The application was favorably considered and the certificate privilege was granted for one year, the period for which it is regularly granted the first time. Recently, application has been made for the renewal of the privilege for three years and this application will be acted upon by the Board at its annual meeting in May. While the preparation of pupils for college is but a small part of the work of our school, still the approval of this board is to some extent an evidence of its efficiency, and is of decided advantage to the school.

Respectfully submitted,

GEORGE F. MURDOCK.

Principal.

## Report of Supervisor of Music.

---

Mr. Frederick L. Kendall,

Superintendent of Schools :

The work done in music in the schools of Hillsboro since last September is most satisfactory. In every room, from the first grade through the high school, there is much enthusiasm on the part of the pupils combined with natural ability, and fine co-operation on the part of the teachers. Along with the prescribed course of study, a little original work in writing easy melodies has been done in the upper grades. New books, the fourth Music Readers, have recently been procured for the eighth and ninth grades, in which they will learn harder three-part songs and also four-part songs.

The high school is preparing an excellent program, which it hopes to render in public a little later. The students are faithful in their work and their enthusiasm enables us to gain good results.

I thank all connected with my work for their co-operation and courtesy.

Respectfully submitted,

GERTRUDE E. CLARK,

Supervisor of Music.

## Report of Supervisor of Drawing.

To the Superintendent of Schools :

The following report of the work of the Department of Drawing is herewith submitted :

On entering, the first of November, upon my duties as drawing teacher, I found the work in a satisfactory condition. In a great many cases, the regular teachers had carried on the work during the months of September and October. It only remained for me to continue.

Each teacher in the elementary grades has an outline of the lessons for at least two months in advance, thus giving a definite end to work for. I have tried to assign work of such a character that the majority of pupils can perform well and that the regular teacher can teach satisfactorily.

In as many schools as possible, I am putting in manual training, without special equipment, along with the drawing, in this way making drawing more practical.

The following topics are included in the course in drawing: Illustrative drawing, object drawing, nature drawing, paper work, color and design.

The work in the high school is a more difficult problem on account of the limited amount of time. The entire school is divided into two classes, mechanical and free-hand drawing. The time given for each of the divisions is forty minutes once in two weeks.

In closing, I wish to thank the teachers for their hearty co-operation.

Respectfully submitted,

CATHERINE REAVELEY,

Supervisor of Drawing.
